Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/631,257	Applicant(s) LI ET AL.	
	Examiner Andrew Chriss	Art Unit 2619	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. Applicant's amendment, filed April 24, 2008, has been entered and carefully considered. Claims 1-25 are currently pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. **Claims 1-25** rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claims contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Independent Claims 1 and 17 respectively cite "obtaining pre-defined modulated transmission protocol bits stored in a memory" and "a memory storing pre-defined modulated transmission protocol bits." The claim language requires that the pre-defined transmission protocol bits are already modulated as they are stored in the memory. However, Applicant's specification does not describe how said transmission protocol bits are modulated prior to being stored in said memory. The step of modulation requires "varying some characteristic of the electrical carrier wave as the information *to be transmitted* on that carrier wave varies" (emphasis added). There is no disclosed step of modulating the pre-defined transmission protocol bits, nor a disclosed feature that would show how a modulated signal could be stored. Therefore, Applicant's disclosure would not enable one

skilled in the art to make and use that defined by the claims of the instant application. Claims 2-16 and 18-25 depend on the independent claims cited above and fail to resolve the deficiencies therein.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. **Claims 5-7, 8, 9, 12, 13, 15, 18, 19, 21, 22, 24, and 25** rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. **Regarding Claims 5-7, 15, 18, and 19**, there is a lack of antecedent basis for claim language “the synchronization sequence.”

7. **Regarding Claims 9, 10, 21, and 22**, there is a lack of antecedent basis for claim language “the packet length information.”

8. **Regarding Claims 12, 13, 24, and 25**, there is a lack of antecedent basis for claim language “the data rate information.”

Response to Arguments

9. Applicant's arguments, filed April 24, 2008, with respect to rejection of Claims 1, 3, 4, and 16 under 35 U.S.C. 102(b) and Claims 2, 5-13, and 17-25 have been considered and are persuasive. The rejection of said claims is withdrawn.
